

Executive summary of Joint Working Outputs

Published on [Working with the NHS \(astrazeneca.co.uk\)](https://www.astrazeneca.co.uk/working-with-the-nhs)

Project title	GM Cancer Direct Patient Access Chest X Ray Pathway
Duration	18 th October 2021- 31 st March 2022
Project partners	The Christie NHS Foundation Trust and AstraZeneca UK, Horizon Place, Luton Bedfordshire LU1 3LU
What was the issue to be addressed?	<p>The project aim is to;</p> <ul style="list-style-type: none">To develop an operational model to support the delivery and launch of a pilot study for direct patient access to CXR within 1 or 2 CCGs in GM. This will enable appropriate patients access to CXR without the need to consult with a HCP.To build a case for change, develop collaborative working arrangements, produce a detailed operational Model including a communications plan and a costed study for pilot and evaluation.
What were the results?	<p>A standard operating model & procedure was developed and integrated into the pilot site.</p> <p>Eligibility criteria for a self-referral CXR established.</p> <p>Clinical pathways established and integrated into current system.</p> <p>Evaluation protocol developed, including costs to run a pilot.</p> <p>Communication plan and means of evaluating response to different forms of advertising established.</p>
