

Executive summary of Cardio Renal Metabolic Joint Working Outputs

Published on [Working with the NHS | AstraZeneca UK](#)

Project title	Cardio Renal Joint Working
Duration	31 st January 2024 - 28 th February 2025
Project partners	Bolton Central Primary Care Network and Astra Zeneca UK Limited
What was the issue to be addressed?	<p>Increase PCN clinical capacity to review the backlog of Cardio, Renal and Metabolic (CVRM) patients caused by COVID-19. The new clinics will be in addition to the existing clinics normally provided by the GP Practices within the PCN and won't seek to replace existing clinics made available to patients.</p> <p>Reduction in long waiting times to be seen by a 'specialist'</p> <p>Drive improvement of understanding within primary care to effectively manage CVRM patients. Education support for multiple stakeholders within primary care.</p>
What were the results?	The output from this project was that 333 patients were seen in consultation clinics over 60 weeks for a review.
