Joint Working between AstraZeneca UK Ltd and Hartlepool Health PCN

Document Number 23-1-ES

Date of Preparation Jul 2023

Project title	LOGIC – hoListic prOactive manaGement In Copd
Aims and Objectives	Optimise treatment and management of COPD patients by providing high quality reviews and upskilling the workforce to deliver better COPD care. It will aim to provide holistic intervention that addresses both lung disease and the psychological impact of COPD.
Anticipated benefits	Patient: Better understanding of their condition and managing through education during clinical reviews, better engagement in their care, improvement on HAD/CAT and MMRC scores. Each patient will have a COPD care plan in place. NHS: Increased capacity in primary care during winter 23/24, reduced prescribing of oral corticosteroids and anti-bacterials. Improved understanding of COPD management.
Timeline	The project will commence on the 2023-07-03 and will continue for a duration of 4 months.
