

## EXECUTIVE SUMMARY INPUT

BETWEEN

AstraZeneca UK Ltd

AND

West Knowsley PCN

West Knowsley PCN Ltd and AstraZeneca UK Ltd are engaged in a Joint Working Project called 'Cardio Renal Joint Working'.

This project will run from 09/2023 to 02/2024 and both parties have contributed resources for this initiative.

The aims of this joint working project are to:

- Increase PCN clinical capacity to review the backlog of Cardio, Renal and Metabolic (CVRM) patients caused by COVID-19. The new clinics will be in-addition to the existing clinics normally provided by the GP Practices within the PCN, and won't seek to replace existing clinics made available to patients
- Reduce long waiting times to be seen by a 'specialist'
- Drive improvement of understanding within primary care to effectively manage CVRM patients
- Support education for multiple stakeholders within primary care
